# India will come to world's aid on vaccine: PM

INDIVJAL DHASMANA  
New Delhi, 17 November

Asserting that BRICS (Brazil, Russia, India, China, and South Africa) could play a pivotal role in global recovery after the pandemic, Prime Minister Narendra Modi on Tuesday held up the Atmanirbhar Bharat campaign's success in a meeting of the bloc.

He sought its support in reforming the United Nations Security Council (UNSC), World Trade Organization (WTO), International Monetary Fund (IMF), and World Health Organization (WHO). Virtually addressing the BRICS summit, chaired by Russian President Vladimir Putin, Modi said the countries standing up for terrorists were equally to blame for terrorism.

"We have initiated a broad reform process under Atmanirbhar Bharat. This campaign is based on the principle that a self-reliant and resilient India can be a force multiplier for the post-Covid global economy and contribute to global value chains," he said during his virtual address.

He said this was demonstrated when India was able to send, on the strength of its pharma industry, essential drugs to more than 150 nations battling Covid-19. He reiterated that

Virtually addressing the BRICS summit, chaired by Russian President Vladimir Putin, Modi said Atmanirbhar Bharat can be a force multiplier for the post-Covid global economy and contribute to global value chains

India's production and distribution capacity for the Covid vaccine would serve humankind.

The PM said 42 per cent of the world population lived in the BRICS nations and these countries were the main driver of the global economy.

The PM pointed out there was vast potential for increasing trade within BRICS. "Our institutions and systems such as the BRICS interbank cooperation mechanism, New Development Bank, contingent reserves arrangement and customs cooperation can make our contribution to global recovery effective," Modi said.

In his intervention, he said the private sector would play a key role in economic integration among BRICS nations. He asked the BRICS Business Council to make a concrete plan to take mutual business within the grouping to \$500 billion.

This was the second time Modi and Chinese President Xi Jinping participated on the same platform recently, the first being the Shanghai Cooperation Organisation meeting.

Modi said multilateralism was passing through difficult times.

"The credibility and effectiveness of institutions of global governance are being questioned. The main reason for this is that they have not been changed in accordance with the times. These institutions are based on the mentality and reality of the world that existed 75 years ago," the PM said.

India believes the UNSC needed reforms, he said. "We expect support from BRICS on this." Besides, reforms are needed in the IMF, WTO, and WHO, he underlined.

The PM said terrorism needed to be tackled in an organised manner.

## Work from anywhere an absolute necessity: Modi

The future is going to be predominantly urban and globally integrated, and we need to transform cities by turning the pandemic crisis to good account, Prime Minister Narendra Modi said on Tuesday at the third Annual Bloomberg New Economy Forum. He said India was poised to make its cities liveable, resilient, and prosperous.

It is important to ease pressure on urban systems by designing post-pandemic protocols of urban living, and making cities work for people than the other way round, Modi said.

He urged global investors to invest in India's urbanisation, and committed a business-friendly climate to them. In that, he stressed the need not to lose the good habits "we acquired" during the pandemic, empower people, and maintain a better work-life balance. "In today's age, empowering people to work from anywhere, to live anywhere, and to plug into global supply chains from anywhere is an absolute necessity," Modi said.

Covid-19 has demonstrated that cities, which are growth engines, are also the most vulnerable from the point of view of public health, he said. This has prompted us to reset our mindset, and restart cities for the future, he added.

"Reconstruction efforts after the two World Wars can give us several lessons on making this possible." Most importantly, he stressed the point that while global cities were going through the worst crisis since the Great Depression (of the 1930s), Indian cities meticulously followed preventive measures.

He underlined a few tools that would help achieve city-led growth, namely affordable housing for all, sustainable mobility and transportation, and technology as an enabler. "We are looking at a future where a major chunk of education, health care, shopping, and food experiences may happen online. Our cities need to be ready for the convergence of the physical and digital worlds," Modi said.

## Second phase of Malabar kicks off in Arabian Sea

The navies of India, the US, Australia and Japan on Tuesday began the second phase of the Malabar naval exercise in the northern Arabian Sea involving two aircraft carriers and a number of frontline warships, submarines and maritime reconnaissance aircraft, officials said. The major highlight of the four-day exercise is participation of Indian Navy's Vikramaditya carrier battle group and the Nimitz strike group of the US Navy. The USS Nimitz is the world's largest warship.

The mega exercise is taking place at a time India and China are locked in an over six-month-long bitter border standoff in eastern Ladakh.

This exercise is involving coordinated operations of increasing complexity among the navies of the four countries which are part of the Quad or Quadrilateral Coalition, officials said.
