**MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

**Industry Structure and Development**

The Leather industry in India holds a significant place in the Indian economy. It is consistent in its high export earnings and is among the top 10 foreign exchange earners for India. It is an employment-focused industry, providing jobs to about 4.42 mn people. India is the 2<sup>nd</sup> largest producer of footwear, 2<sup>nd</sup> largest exporter of Leather Garments, the 5<sup>th</sup> largest exporter of Leather Goods and 3<sup>rd</sup> Largest Exporter of Saddlery and Harness items. Leather is one of the most widely traded commodities globally. The growth in demand for leather is driven by the fashion industry, especially footwear. Apart from this, furniture and interior design industries, as well as the automotive industry also demand leather. The Indian leather industry accounts for around 12.93 per cent of the world's leather production of hides/skins.

The Leather industry in India stands at US\$ 17.85 bn (Exports – US\$ 5.85 bn, Domestic Market – US\$ 12 bn). Export of different categories of Footwear (leather & non-leather and components) holds a major share of about 50.34%.

Standard Shoe Sole and Mould (India) limited having object to carry on the business in footwear, synthetic shoe sole, ladies heels and moulds and also to deal in dyes, acids, alkalies etc. will definitely gain from the emerging opportunities.

**Opportunities and Threats**

Considering that Leather is a focus product in the “**Make in India**” campaign and also that India is being considered as one of the best destinations in the world for investing in the leather industry because India is endowed with abundant raw materials required for the industry to grow, this is expected to drive positive sentiments as foreign (leather) companies will have to come and invest here in India and there will be flow of currency into India also as per the present scenario.

Leather Industry is also eyeing an opportunity to increase exports to the US and other countries, at a time when Chinese shipments to these markets are becoming more expensive. While so far the Indian Exports were focusing in European countries there is now opportunity in the US and other countries that are opening up to Indian exports.

With the rise in disposable and exposure in fashion trends, consumers today are on the lookout for footwear and accessories that are high on the fashion aspect, without compromising on quality. Upwardly mobile youth are spending more on shoes and thrust is on variety and international trends. Professional women are increasingly spending more on footwear and this creates a new opportunity in the market to expand.

However, the Domestic market might have to face some trouble with the stringent legislative policies which are not much industry friendly. Historically, the slaughter of cattle in India is banned in respect of the government legislation due to the animal's sacred status. Organized retailers in India are also facing a threat from 'non-specialist' retailers like apparel retailers diversifying into footwear and discount hypermarkets and retailers introducing and promoting their own brands at competitive prices.

**Segment Wise or Product wise Performance**

Your Company operates in only one segment. During the year 2018-19, the company had recovered its earlier dues which were used to meet the expenses and obligations.

There are some claims against the Company which have not been acknowledged as debts which are mentioned in notes on accounts. On the basis of current status of these cases and legal advice obtained, the Company is confident that no provision is required in respect of these cases at this point in time.

**Standard Shoe Sole and Mould (India) Ltd.**  
**[Formerly Known as Chemcrown (India) Limited]**

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF  
STANDARD SHOE SOLE & MOULD (INDIA) LIMITED**

**Report on the Audit of the Financial Statements**

**Opinion**

1. We have audited the accompanying financial statements of Standard Shoe Sole & (Mould) Limited ("the Company"), which comprise the balance sheet as at 31st March 2019, the statement of Profit and Loss, and the statement of cash flows for the year then ended, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its profit, and its cash flows for the year ended on that date.

**Basis for Opinion**

2. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Other Information**

3. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis; Board's Report including Annexures to Board Report, Business Responsibility Report and Shareholders' Information but does not include the financial statements and our auditor's report thereon.
4. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
5. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.
6. If, based on the work we have performed on the other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Management's Responsibility for Financial Statements**

7. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.
8. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. The Board of Directors are also responsible for overseeing the company's financial reporting process.

**Standard Shoe Sole and Mould (India) Ltd.**  
**[Formerly Known as Chemcrown (India) Limited]**

**Auditor's Responsibility for the Audit of the Financial Statements**

10. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
11. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - Obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
  - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
  - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
  - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matters or when we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
15. Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

**Report on Other Legal and Regulatory Requirements**

16. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure-A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

## **NOTE No.-18**

### **1) SIGNIFICANTS ACCOUNTING POLICIES:-**

#### **A. Background**

Standard Shoe Sole & Mould (India) Limited is a Listed Public Limited Company having registered office in Kolkata. The company engage in the Business of Trading.

#### **B. Statement of Compliance**

The financial statements have been prepared in accordance with Indian Accounting Standard (IND AS) notified under section 133 of the Companies Act, 2013. These Financial Statements have also been prepared in accordance with the relevant presentation requirements of the companies Act, 2013. The Company adopted IND AS on 1<sup>st</sup> April, 2017.

Up to the year ended 31<sup>st</sup> March, 2017 the company prepared its financial statements in accordance with the requirements of previous Generally Accepted Accounting Policies (GAAP), which includes standards notified under the Companies (Accounting Standard) Rules, 2006. These are the Company's 2<sup>nd</sup> IND AS financial statements. The date of transition to IND AS is 1<sup>st</sup> April, 2016.

#### **C. Basis of Preparation**

The financial statements are prepared in accordance with the historical cost convention, except for certain items that are measured at fair values at the end of each reporting period, as explained in accounting policies.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the company takes into account the characteristic of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purpose in these financial statements is determined on such a basis.

The preparation of financial statements in conformity with IND AS requires management to make judgements, estimates and assumption that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period; they are recognized in the period of the revision and future periods if the revision affects both current and future periods.

All assets and liabilities have been classified as current or non-current as per Company's normal operating cycle and other criteria set out in schedule-III to the Companies Act 2013 and AS-1 Presentation of Financial Statements based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents.

#### **D. Revenue recognition**

Revenue from sales of goods is recognised when significant risks and rewards of ownership have been transferred to the customers which generally coincides with their delivery to customers, the amount of revenue can be measured reliably and recovery of the consideration is probable. Revenue from the sale of goods includes excise and other duties which the company pays as a principal but excludes amounts collected on behalf of third parties, such as sales and value added tax and goods and service tax. It is measured at the fair value of the consideration received or receivable for goods supplied net of returns and discounts to customers.

Revenue from services is recognised at the fair value of the consideration received or receivable for services rendered in the periods in which the services are rendered on prorated basis over the period or per the terms of the contract.

Dividend income from investment is recognized when the shareholder's right to receive dividend has been established.

#### **E. Taxation**

Tax expenses comprise current and deferred tax.

# **Standard Shoe Sole and Mould (India) Ltd.**

**[Formerly Known as Chemcrown (India) Limited]**

## **F. Current tax**

Current tax is measured at the amount expected to be paid to tax authorities in accordance with the Income Tax Act, 1961. The company's current tax is calculated using tax rates and tax laws that have been enacted during the period, together with any adjustment to tax payable in respect to previous year. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realise the asset and settle the liability simultaneously.

## **G. Provision and contingent liabilities**

The Company recognises a provision when there is a present obligation as a result of an obligating event that probably requires outflow of resources and a reliable estimate can be made of the amount of obligation. When some or all the economic benefits to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of receivable can be measured reliably. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

A disclosure of a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation and the likelihood of outflow of resources is remote, no provision or disclosure of contingent liability is made.

## **H. Financial assets**

All regular way purchases or sales of financial assets are recognised and de-recognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of financial assets.

### **Recognition**

Financial assets include investments, trade receivable, derivative instruments, cash and cash equivalents, other bank balances, loans and other financial assets. Such assets are initially recognised at transaction price when the Company becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the standalone statement of profit and loss.

### **Classification**

Management determines the classification of an initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends upon such classification.

Financial assets are classified as those measured at:

- a) Amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principle and/ or interest.
- b) Fair value through other comprehensive income, where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets. Such assets are subsequently measured at fair value, with unrealised gain and losses arising from changes in the fair value being recognised in other comprehensive income.
- c) Fair value through other comprehensive income, where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets, such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in other comprehensive income.

Trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets are classified for measurement at amortised cost. Derivative instruments are measured at fair value through statement of profit and loss while investments may fall under any of the aforesaid classes. However, in respect of particular investments in equity instruments that would otherwise be measured at fair value through profit and loss, an irrevocable election at initial recognition may be made to present subsequent changes in fair value through other comprehensive income.

# **Standard Shoe Sole and Mould (India) Ltd.**

**[Formerly Known as Chemcrown (India) Limited]**

## **I. Financial Liabilities and equity instruments**

### **Classification:**

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### **Earnings per share:**

Basic earnings per share are calculated by dividing the profit and loss for the year attributed to shareholders by the weighted average number of the shares outstanding during the year. For the purpose of calculating diluted earnings per share, the profit and loss for the year attributable to shareholders and weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential shares.

## **2. USE OF ESTIMATES AND JUDGEMENTS:-**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumption that affect the reported amounts of assets and liabilities disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

### **Fair Value measurements and valuation process**

Some of the Company's assets and liabilities are measured at fair value for financial reporting purpose. In estimating the fair value of an asset or a liability, the company uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Company engages third party qualified valuers to perform the valuation, if required.

3.
